SUBJECT INDEX

Airway
  affecting voice quality, 224
  nasal, improvement with vertical dome division, 107
  obstruction after vocal fold injection, 208, 241
Alboulker stent in pediatric laryngotracheal reconstruction, 161
Apnea in sleep, thyrohyoid suspension in, 138
Arytenoid cartilages
  in aspiration problems
    adduction technique in, 131
    and elevationplasty of interarytenoid region, 186
    thyroplasty type I with arytenoid rotation in, 185
  dislocation of, 196
    botulinum toxin injection in, 201
    diagnosis of, 197
    surgical reduction of, 198
  embryology and anatomy of, 196
Arytenoidectomy
  anterolateral, cordotomy with, 227
  with endo-extralaryngeal suture for vocal cord lateralization, 167
  submucosal partial, with stitch lateralization, 225
Aspiration problems, 180
  arytenoid adduction in, 131
  elevationplasty of interarytenoid region in, 186
  epiglottis declination plasty in, 189
  laryngeal diversion in, 190
  laryngeal framework surgery in, 126
  myotomy of upper esophageal sphincter in, 181
  nonsurgical treatment of, 128
  partial cricoid resection in, 190
  partial unilateral pharyngeal resection in, 183
  percutaneous endoscopic gastrostomy in, 181
  positioning of laryngohyoid unit in, 187
  pouch surgery in, 182
  reversible subglottic closure in, 190
  supraglottic closure of larynx in, 190
  and surgery of silent aspiration, 190
  thyroplasty in, 129
    type I procedure with arytenoid rotation, 185
  tracheostomy in, 180

Balloon pump, intra-aortic, bilateral vocal fold paralysis from, 117
Biopsy
  fiberoptic laryngoscopy in, 239
  fine needle, of head and neck masses, 103
Bone graft for stapes replacement, 11
Botulinum toxin injection for arytenoid dislocation, 201

Carcinoma
  glottic, conservation surgery in, 214
  laryngeal or pharyngeal, staging with fiberoptic laryngoscopy, 239
Causse prostheses
  malleus, 98
  stapes, 90
Cidofovir injection, intralesional, in papillomatosis of larynx in children, 212
Collagen injection of vocal fold, 204, 241
Correspondence, 243

Costal cartilage graft in pediatric laryngotracheal reconstruction, 160
Cottle's maneuver to open nasal valve, 107
Cricoid cartilage, partial resection in aspiration problems, 190
Cricoidotomy, in pediatric laryngotracheal reconstruction, 160
Cysts, intracordal, phonomicrosurgery in, 230

Decannulation in children
  in laryngotracheal reconstruction, 163
  and suprastomal collapse in tracheotomy, 175
Difficult decisions, in stapes surgery in obscured oval window, 58
Dysphagia, and aspiration problems, 126, 180
Dyspnea in bilateral vocal cord paralysis, Isshiki Type II thyroplasty in, 154

Ear, otosclerosis management. *See* Stapes surgery
Editorial, 179
Endoscopic surgery
  endo-extralaryngeal suture for vocal cord paralysis, 166
  laryngeal
    in glottic carcinoma, 216
    laser-assisted, 240
    vocal fold injections in, 205, 240
  in pediatric laryngotracheal reconstruction, 159
  percutaneous gastrostomy in aspiration problems, 181
  in scarred laryngeal stenosis, 150
Epiglottis declination plasty in aspiration problems, 189
  laryngohyoidopexy with, 188
Esophagus
  construction of total extrathoracic neoesophagus, 142
  upper sphincter myotomy in aspiration problems, 181

Facial nerve overhang in stapes surgery, 27, 46
Fat injection of vocal fold, 204, 241
  resorption of fat after, 204, 208
Fiberoptic laryngoscopic surgery, 238

Gastroesophageal reflux, and laryngotracheal stenosis, 172
Gastrostomy, percutaneous endoscopic, in aspiration problems, 181
Gelfoam injection of vocal fold, 204, 241
  complications from, 209
Glossectomy defects, marlex mesh suspension of mouth floor in, 119
Glottis exposure and visualization for phonomicrosurgery, 192

Head and neck masses, fine needle biopsy of, 103
Hearing loss, sensorineural, after revision stapedectomy, 80, 92
Hydrodissection plus microexcision in papillomatosis of larynx in children, 211
Hyoid bone graft in pediatric laryngotracheal reconstruction, 160

Incudostapedial joint
  in laser stapedotomy, 42, 52
  in partial stapedectomy, 16

in revision stapedectomy, 70, 83
in total stapedectomy, 5
Incus
abnormalities found in stapes surgery, 76, 79, 93
necrosis of
correction during revision stapes surgery, 98
repair with bone cement, 94
Innovative techniques
endo-extralaryngeal suture for vocal cord lateralization, 166
modification of standard stapedotomy, 64
in office-based fiberoptic laryngoscopic surgery, 238
phonomicrosurgery of intracordal cysts, 230
Interferon injection, intralesional, in papillomatosis of larynx in children, 211
Isshiki Type II thyroplasty in bilateral vocal cord paralysis, 154

Kashima procedure in bilateral paralysis of vocal apparatus, 241

Laryngeal nerve damage, vocal fold paralysis from, 127
bilateral, 117
Laryngeal surgery
in arytenoid dislocation, 196
in aspiration problems, 126, 180. *See also* Aspiration problems
in bilateral vocal fold paralysis, 224
conservation surgery in glottic carcinoma, 214
in anterior commissure disease, 215
endoscopic technique in, 216
fronto-lateral hemilaryngectomy in, 221
open cordectomy via laryngofissure in, 218
partial vertical laryngectomy in, 220
and vocal outcome after musculo-membranous resection, 217
endoscopic
in glottic carcinoma, 216
laser-assisted, 240
vocal fold injections in, 205, 240
exposure and visualization of glottis for phonomicrosurgery, 192
office-based fiberoptic laryngoscopic procedures in, 238
pediatric laryngotracheal reconstruction, 158
in pediatric papillomatosis, 210
phonomicrosurgery of intracordal cysts, 230
in scarred stenosis, 150
thyrohyoid suspension for obstructive sleep apnea, 138
in vocal cord paralysis. *See* Vocal apparatus disorders
vocal fold injections in, 203, 240
Laryngohyoid unit, positioning of, in aspiration problems, 187
Laryngoscopic surgery, fiberoptic, office-based, 238
anesthesia in, 238
in cancer staging, 239
laser-assisted, 240
potential complications of, 241
in vocal fold injections, 240
Laryngotracheal separation technique in aspiration problems, 190
Larynx
neuro-anatomy of, 127
stenosis of
in children, laryngotracheal reconstruction in, 158
from gastroesophageal reflux, 172
open and endoscopic surgical techniques in, 150
Laser surgery
argon laser
in primary stapedectomy, 11, 48
in revision stapes surgery, 88
CO_2 laser
in primary stapedotomy, 24
in revision stapes surgery, 72, 82
in endoscopic laryngeal surgery, 240
KTP laser
in primary stapedotomy, 38
in revision stapes surgery, 82
in laryngeal papillomatosis in children, 211
wavelengths approved for otologic surgery, 72
Lipoinjection of vocal fold, 204, 241
resorption of fat after, 204, 208
Lippy-Robinson stapes prosthesis, 98, 101

Malleus abnormalities found in stapes surgery, 76, 79, 93
Marlex mesh suspension of mouth floor, for glossectomy defects, 119
Microdebrider for intraturbinate stroma removal, 135
Microflaps, lateral or medial, for intracordal cysts, 234
Montgomery stent in pediatric laryngotracheal reconstruction, 161
Myotomy of upper esophageal sphincter in aspiration problems, 181

Nose
intraturbinate stroma removal, 135
vertical dome division for valvular incompetence, 107

Oral cavity
marlex mesh suspension of mouth floor, 119
procedures for aspiration problems, 126
reconstruction of soft palate defects, 123, 243
Otosclerosis
primary stapes surgery in, 1. *See also* Stapes surgery, primary
revision stapes surgery in, 67. *See also* Stapes surgery, revision

Papillomatosis of larynx in children, 210
hydrodissection plus microexcision in, 211
intralesional injections in
cidofovir, 212
interferon, 211
laser surgery in, 211
powered instrumentation in, 211
Pediatrics
laryngeal papillomatosis management, 210
laryngotracheal reconstruction techniques, 158
suprastomal tracheal collapse complicating tracheotomy, 175
Perichondrium graft in stapedectomy, 8
Pharynx in aspiration problems
partial unilateral resection in, 183
pouch surgery in, 182
Phonosurgery. *See* Laryngeal surgery
Powered instrumentation in papillomatosis of larynx in children, 211

Reflux, gastroesophageal, and laryngotracheal stenosis, 172
Rhinitis, chronic hypertrophic, turbinate reduction in, 135
Robinson prosthesis
in partial stapedectomy, 17
in total stapedectomy, 4

Schoenrock, Larry D., memorial for, 2

Sheehy incus replacement prosthesis, 98, 101
Sleep apnea, obstructive, thyrohyoid suspension in, 138
Soft palate defects, reconstruction of, 123, 243
Stapedial artery persistence, stapes surgery with, 58
Stapes surgery
  primary
    CO_2 laser stapedotomy, 24
    anatomic abnormalities in, 27
    anesthesia in, 26
    enlargement of auditory canal or meatus in, 25
    patient counseling in, 25
    postoperative complications of, 30
    prosthesis measurement in, 27
    surgical trauma in, 28
  difficult decisions in, 58
  fiberoptic argon laser stapedotomy, 48
    incudostapedial joint in, 52
    postoperative care in, 54
    prosthesis measurement in, 52
    scutal bone removal in, 51
    vein graft in, 50
  floating footplate in, 47
  laser stapedotomy technique, 38
    analgesia in, 40
    microscope preparation in, 38
    operative technique in, 40
    prosthesis in, 42, 56
  mechanical small fenestra stapedotomy, 33
    operative technique in, 34
    prosthesis in, 36
  modification of standard stapedotomy technique, 64
  obliterated footplate in, 47
  in obscured oval window, 58
  overhanging facial nerve in, 27, 46, 58
  partial stapedectomy, 13
    anesthesia in, 14
    contraindications, 13
    curetting in, 15
    footplate in, 16
    incisions in, 14
    lysis of incudostapedial joint in, 16
    middle ear in, 15
    prosthesis in, 17
